- 4- The brave young man managed to safe the child from drowning.
- 5- The job he applied to was rewarding.
- 6- He accepted my apology on being late.

C- Reading

5- Read the following passage, and then answer the questions:

Hibernation is one of the main adaptations that allow certain northern animals to survive long, cold winters. Hibernation is like a very deep sleep that allows animals to save their energy when there is little or no food available. The body functions of "true hibernators" go through several changes while they are hibernating. Body temperature drops, and the heart rate slows. True hibernators include the jumping mouse, little brown bat, eastern chipmunk, and several ground squirrels. Other animals, such as the skunk and raccoon, are not considered true hibernators, as they wake up in the winter to feed, and their body action do not change as much. Since they only sleep for a little bit at night, the term dormancy or 'light sleeping' is used to describe their behavior. The largest animals to hibernate are bears. Their heart rate may slow down from a usual 40-50 beats per minute to 8-12 beats per minute, but their body temperature changes very little, so they are able to wake up quickly.

A. Give short answers to the following questions:

- 1- Why do animals hibernate?
- 2- What changes occur in the functions of an animal's body when it hibernates?
- 3- What is the term used to describe the behavior of raccons and skunks?

B. Choose the correct answer from a , b , c , or d:

- 4- During hibernation, body temperature
a) slows b) runs c) drops d) jumps
- 5- The largest animal which hibernates is
a) the rat b) the lion c) the raccoon d) the bear

6- Read the following passage, and then answer the questions:

In the present financial climate, many clubs and businesses are struggling to **survive**. Sports clubs, too are facing difficulties due to lack of funds.

The main problem seems to be the rent that we pay for the club. It's over £500 a month and that's just too much really. What about moving to cheaper premises – has anyone thought of that?

The youth leader has asked the club members to write an article suggesting ways of raising money to keep the youth club open.

I know that the club's not perfect but we would buy some new equipment and maybe even decorate it to make it nicer for all of us.

I really like going to the club and I know that most of the others do as well, so come on – let's see if we can do something to save it!

E- Translation

9- A: Translate into Arabic:

Do you think that modified food is unnatural? A lot of people fear that genetic engineering will cause serious diseases in the future. They believe that the harm done in this case may be too great to overcome.

B: Translate into English:

- ١- إن تعمير سيناء واستصلاح أراضيها هو صمام الأمان لمصر .
- ٢- قامت الحكومة ببناء عدة مدن جديدة في الصحراء لحل مشكلة الإسكان .
