Writing paragraph and e mail

The most famous building in your area

There are some amazing works of engineering In my country ,Egypt,, both ancient and modern. Abu Simbel is the site of two temples which were carved into a cliff in about 1250 BCE. The larger temple was positioned so that at certain times of the year, the rays of the rising sun would illuminate the temple's statues. In 1954, the government decided to build the Aswan High Dam. This meant that the Nile Valley would be flooded and that Abu Simbel itself would be under water, so plans were made to rescue it. The massive statues were cut into pieces and raised over 60 metres up the cliff, where they were attached to a concrete base.. I always visit Abu Simbel to enjoy watching the great historical monuments there and to see the greatness of my ancestors .
